

A Course of Instruction in the Qualitative Chemical Analysis of Inorganic Substances (Classic Reprint)

Filesize: 8.51 MB

Reviews

This ebook is amazing. It is one of the most awesome pdf i have got read through. Your way of life span will probably be transform as soon as you comprehensive looking over this pdf.

(Lula Graham IV)

A COURSE OF INSTRUCTION IN THE QUALITATIVE CHEMICAL ANALYSIS OF INORGANIC SUBSTANCES (CLASSIC REPRINT)

To read **A Course of Instruction in the Qualitative Chemical Analysis of Inorganic Substances (Classic Reprint)** eBook, you should refer to the link under and download the file or have accessibility to additional information which might be related to **A COURSE OF INSTRUCTION IN THE QUALITATIVE CHEMICAL ANALYSIS OF INORGANIC SUBSTANCES (CLASSIC REPRINT)** eBook.

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from **A Course of Instruction in the Qualitative Chemical Analysis of Inorganic Substances** This text-book is an attempt, on the experimental side, to train the student of qualitativ analysis in careful manipulation and exact methods of procedure such as are commonly employed in quantitativ analysis. It is an attempt, on the theoretical side, to make clear to the student the reason for each operation and result, and to accustom him to apply to them the laws of chemical equilibrium and the principles relating to the ionization and complex-formation of substances in solution. It is believed that in both these ways the educational value of the subject is greatly increased. The book is divided into two main Parts, entitled **The Course of Instruction** and **The System of Analysis**. In presenting the **System of Analysis** the plan adopted in the earlier editions of this book has been followed, namely, that of separating sharply the description of the operations from the discussion and explanation of them. The operations are described with as great definiteness as possible in short paragraphs entitled **Procedures**; and each of these is followed by **Notes** in which are given the reasons for the operations, the precautions necessary and difficulties encountered in special cases, the chemical behavior of the different elements, the indications afforded of their presence, and the application of the theoretical principles to the reactions involved. The system of procedure has been thoroly revised as a result of the extended investigations made in the laboratory of this Institute during the past six years and described in volumes 29, 30, 31, and 34 of the **Journal of the American Chemical Society**. As a result of...
