*A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).*

The creation of fables in China flourished during the pre-Qin period (770-221 BC). Many fabulists at that time were leading thinkers of the world. The fables in Zhuang Zi and Lie Zi are characterized by soaring imagination, bold exaggeration, rich language and broad vision; these promoted the Taoist ideas of revering the Way, valuing Emptiness (formless, not bound by any concrete laws), the equality of all things, and detachment from worldly concerns. The fables in Han Fei Zi are characterized by laconic and accurate language and put forth Legalist propositions of suiting political reforms to the time and situation and carrying out rigorous punishments and criminal law. Those in Zhan Guo Ce (Warring States Anecdotes) display a grandiose style of writing, and bring forward flexible strategies for heading off dangers in handling important diplomatic, military and domestic political issues. One hundred and twenty-one of the best ancient Chinese fables-mostly from the 4th and 3rd centuries B.C. as well as the 16th and 17th centuries- are contained in this volume. Written in the simple language of the people, these fables embodying the experience and wisdom of the Chinese have found their way into the hearts of many over hundreds...
