Therefore, we must first measurement properties of the examinations should philosophy, sociology, education and psychology analysis. At the same time, my colleagues, but also of the examination desired measured psychological characteristics of the observed structure and measuring the reaction process to make the depth of modern psychology. These constitute the main content of the first chapter of this book and the third chapter. Chapter 10 of some of the important content. However, the main part of the book is the mental Metrology content. The second chapter of the true score theory Chapter IV generalized theory are mainly for the analysis of measurement theory test total scores. True score theory has an important position in history, and still play a fundamental role in the real practice; generalization theory, to optimize the test conditions to control the measurement error plays a more highly value the guidance, people will be apparent a branch of modern measurement theory, the book is still on them to be carefully summarized Review. Starting from the fifth chapter, the main content of the basic concepts and methods of discourse item response theory, analysis of it is beyond the limitations of the advantages of true score theory and focus on exam work on it, including the estimated level of analysis tests and projects quality inspection tests, control measurement error, test equating avoid quiz deviation and correctly to achieve the the quizzes purpose requirements of technology and strategy, many explore. Education measurement from a technical point of view to study...
