INVESTIGATIONS ON WATER METABOLISM, DRINKING BEHAVIOUR AND THERMOREGULATION IN SHEEP AND GOATS

Cuvillier Verlag Mrz 2016, 2016. Taschenbuch. Book Condition: Neu. 211x157x12 mm. Neuware - The general aim of this study was to evaluate whether D2O dilution technique would accurately predict water intake and turnover in sheep and goats under different practical management practices (water restriction and shearing) by comparing the results with measured water intake. Another focus was the species comparison between sheep and goats in relation to their use of water. Three experiments were conducted using German blackhead mutton sheep...

Reviews

The ideal ebook i actually study. It is among the most incredible book we have study. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Boyd Steuber**

A must buy book if you need to adding benefit. Of course, it is actually perform, still an interesting and amazing literature. I am delighted to explain how this is basically the best book i actually have read through during my individual life and may be he best book for at any time.
