GODS, GENES, CONSCIENCE: A SOCIO-INTELLECTUAL SURVEY OF OUR DYNAMIC MIND, LIFE, ALL CREATIONS IN BETWEEN AND BEYOND, ON EARTH--OR, A CRITICAL R

iUniverse, United States, 2006. Paperback. Book Condition: New. 223 x 152 mm. Language: English Brand New Book ***** Print on Demand *****. GODS, GENES, CONSCIENCE delves deeply, and portrays succinctly, the nature of our millennia-old body-soul and spirit-mind paradoxes, including those of our earliest shamanic quests, and material conquests, for survival: From our innate dreams, to religious self-contradictions-corruptions-conflicts-destructions; to arts-linguistics; to socioeconomics-geopolitics; to science-technology; and to reason-sensibility-sanity-faith. Specifically, this pop-science-first-book author, Mong H Tan, PhD, fathoms links among the chaos-orders of the evolutionary interstellar fabrics of Space, Time, Energy, and Matter; or the cosmic STEM matrixes-entities in the Universe that are all around us: From the creations of Life-Genes on Earth, to the ultimate, unique, unbound capacity-capability of our Mind-Gods within, in our brain or memophorescency, a new unified quantum Mind theory pursued from an empiricist electrochemical particle-wave or Yin-Yang propensities of holism-cosmology; a critical reader s Theory of Everything, Biogenesis-Meanings and all. Epistemologically- memophorescency, in and by all accounts, intellectual and spiritual; Dr. Tan s critical inquiries, philosophical and psychological; his timely anatomy-synthesis of the STEM origins (particularly those of our genetics-mnemonics; our fast-advancing knowledge, consciousness, freewill, and conscience regarding Gods; and our ultimate wisdom of cherishing Life on Earth) have no doubt been sharpened, enriched, and transcended by the vast, fast advances in science-technology, multiculturalism, and pluralism of the East-West, today and beyond.
